| Military service: Completed

OBJECTIVE

A man with a great passion for web development, highly motivated individual, who seeks great opportunities Where I can apply and enhance my knowledge and skills especially in an inspiring environment.

EDUCATION

Bachelor of information technology, Suez institute for management information system, 74% (2017-2021)

EXPERIENCE

Front End Web Developer – React.js – Next.js

❖ EgyVPN (Finished Project, Worked for 4 Months – egyvpn.com)

- Interacted with APIs
- Built fully responsive web designs
- Provided the best user experience and interactions
- Created drag-and-drop components
- Used Tailwind CSS for customizing the website
- Developed every component without external libraries
- Utilized SweetAlert to enhance user experience
- Website integrates MikroTik technology

❖ Portfolio Website for a Greek Artist – masquerades-room.vercel.app

- Designed and developed a personalized online portfolio to showcase an artist's drawings
- Focused on visual storytelling and clean user interface
- Ensured mobile responsiveness and cross-browser compatibility

❖ Remote Web Development – Interflow, Saudi Arabia – interflow.sa (January 5, 2025 – Present)

- Building a restaurant management system using React.js & Next.js
- Managing 3 production-grade websites (2 React, 1 Next.js)
- State management with Redux
- Built dynamic charts using ShadCN/UI
- POS receipt printing via react-to-print
- Developed image cropping tool for product uploads
- Integrated YouTube API for video management
- Created a drag-and-drop interface for chef dashboards
- Developed real-time cashier system with WebSocket
- Enabled push notifications using Firebase
- Multilingual support with i18next (18 languages)
- Version control via GitHub; task tracking using Jira
- Developed an interactive map using [@react-google-maps/api](https://react-google-maps/api)

- Enabled users to draw and modify **circles and polygons** dynamically
- Implemented **radius-based filtering** and **custom polygon zones**

SKILLS

- HTML
- CSS
- Bootstrap
- JavaScript
- JQuery
- ECMAScript
- Tailwind Css
- React.Js
- Next.Js
- Redux
- Shad CN
- Web Socket
- TypeScript

COURSES

- Front End Web Development React/Next.Js at Route Academy (Jun 2024 – Dec 2024) Course graduation project :

For my graduation project in a Front-End Development course, I developed a fully functional e-commerce website. The project showcased key skills such as creating dynamic and responsive user interfaces using React.js, integrating APIs for product and order management, and employing Tailwind CSS for modern and consistent styling. Features included a shopping cart, and user authentication, all designed to enhance user experience and interaction. This project not only solidified my front-end development skills but also demonstrated my ability to build scalable and user-friendly web applications. [Fresh cart e-commerce website](#)
